Fruit and vegetables: common organisation of the market COM

1995/0247(CNS) - 13/05/1996 - Amended legislative proposal for reconsultation

During the Council of 10 November 1995, the Commission confirmed that it would propose to the Council a new system of aid for producers of certain citrus fruits. In this new system, the minimum price that the processor must pay to the producer is done away with. It would be appropriate to take account of this in the present proposal.
