

Wheeled agricultural and forestry tractors: type-approval of lighting and light-signalling devices (repeal. Directive 79/352/EEC). Codification

2007/0284(COD) - 20/12/2007 - Legislative proposal

PURPOSE: codification of the legislation on the component type-approval of lighting and light-signalling devices on wheeled agricultural or forestry tractors.

PROPOSED ACT: Directive of the European Parliament and of the Council

CONTENT: The purpose of this proposal is to undertake a codification of Council Directive 79/532/EEC of 17 May 1979 on the approximation of the laws of the Member States relating to the component type-approval of lighting and light-signalling devices on wheeled agricultural or forestry tractors.

The new Directive will supersede the various acts incorporated in it; this proposal fully preserves the content of the acts being codified and hence does no more than bring them together with only such formal amendments as are required by the codification exercise itself.
