Community statistical system: common statistical classification of economic activities NACE

2007/0256(COD) - 26/02/2008

The Committee on Legal Affairs adopted the report by Lidia Joanna **GERINGER DE OEDENBERG** (PES, PL) approving, under the 1st reading of the codecision procedure, the proposal for a regulation of the European Parliament and the Council on the statistical classification of economic activities in the European Community (codified version).

No “formal” amendments were tabled to the proposal, but the committee took note of the recommendations of the Consultative Working Party of the legal services of the European Parliament, Council and Commission, which considered that the proposal was a straightforward codification of existing texts, without any change in their substance.
