

Pressure equipment: simple pressure vessels.

Codification

2008/0076(COD) - 17/04/2008 - Legislative proposal

PURPOSE: codification of the Directive on the harmonisation of the laws of the Member States relating to simple pressure vessels.

PROPOSED ACT: Directive of the European Parliament and of the Council.

CONTENT: the purpose of this proposal is to undertake a codification of Council Directive 87/404/EEC of 25 June 1987 on the harmonisation of the laws of the Member States relating to simple pressure vessels. The new Directive will supersede the various acts incorporated in it. This proposal fully preserves the content of the acts being codified and hence does no more than bring them together with only such formal amendments as are required by the codification exercise itself.
