

Food information to consumers

2008/0028(COD) - 22/06/2009

The Council took note of the **Presidency progress report** on the proposal for a Regulation on the provision of food information to consumers (labelling), which briefly describes the state of play of the discussions within the Council's preparatory bodies on this complex legislative dossier (*Council doc. [10641/09](#)*).

The examination of the file should continue during the Swedish Presidency in order to reach an agreement within the Council, while awaiting the outcome of the European Parliament's first reading.
