

# Joint Baltic Sea Research and Development Programme (BONUS)

2009/0169(COD) - 03/12/2009

The Commission made a **brief presentation** on the proposal for combating the negative impact of pollution, climate change, acidification, overexploitation and biodiversity loss in the Baltic Sea by means of a joint research and development project (the "BONUS-169" programme) undertaken by EU Baltic Sea countries.
