

# 2008 discharge: European Joint Undertaking for ITER and the Development of Fusion Energy

2009/2187(DEC) - 05/05/2010 - Text adopted by Parliament, single reading

The European Parliament adopted by 544 votes to 31, with 64 abstentions, a decision on discharge to be granted to the Director of the European Joint Undertaking for ITER and the Development of Fusion Energy in respect of the implementation of its budget for the financial year 2008.

Furthermore, Parliament adopted a resolution with observations which are an integral part of the decision to grant discharge.

The main points are as follows:

- **carryover of appropriations:** Parliament notes that the Court of Auditors identified a surplus of EUR 57.6 million. Part of that surplus was carried over to the 2009 financial year. It notes the Joint Undertaking's reply to the effect that the under-spending to which the Court of Auditors refers stemmed from the fact that this was the Joint Undertaking's first year of financial autonomy from the Commission;
- **commitment irregularities:** Parliament notes that in six cases considered by the Court of Auditors, the Joint Undertaking made budget commitments only after it had already entered into legal obligations. It calls, accordingly, on the Joint Undertaking to comply with the Financial Regulation in this respect as well;
- **ITER Financial Regulation:** Parliament calls for a number of specific changes to be made to the ITER Financial Regulation, including as regards exceptions to the budgetary principles, the role of the Commission's Internal Audit Service, late payment of members' contributions, the rules on the award of grants and the transitional provisions;
- **internal control systems:** Parliament expressly recommends that the Joint Undertaking carries out further work on documenting IT processes and activities and analysing IT risks. It stresses, furthermore, that ITER has appointed a Data Protection Officer and the necessary steps have been taken to further develop the Business Continuity and Data Recovery Plan. Parliament concludes that the Joint Undertaking has a permanently high level of cash holdings (EUR 58 980 569.87 in 2008). It asks the Commission to examine what scope there is for introducing needs-orientated management of cash holdings at the Joint Undertaking, and what changes of approach are necessary in order to keep the Joint Undertaking's cash holdings permanently as low as possible.

Noting that the Agency's annual accounts for the financial year 2008 are reliable, and the underlying transactions are legal and regular, Parliament approves the closure of the Joint Undertaking's accounts. However, it makes a number of recommendations that need to be taken into account when the discharge is granted, in addition to the general recommendations that appear in the draft resolution on financial management and control of EU agencies (see [2010/2007\(INI\)](#) adopted in parallel).
