Medicinal products for human use: prevention of the entry into the legal supply chain of falsified medicinal products

2008/0261(COD) - 07/06/2010

The Council took note of a presidency progress report on the **state of play in the negotiations** on the prevention of falsified medicines from entering into the legal supply chain of medicinal products (*doc. 10469/10*).

The presidency also provided the Council with oral information on the progress in the discussions on the strengthening of the current pharmacovigilance system (aimed at protecting patients from adverse reactions to medicinal products). With regard to the pharmacovigilance part of the pharmaceutical package, the presidency will endeavour to reach an agreement at first reading with the European Parliament before the end of June.
