Organisation of working time: persons performing mobile road transport activities

2008/0195(COD) - 24/06/2010

The Commission informed the Council about the rejection by the European Parliament of the proposal for a modified directive on the working time of mobile road transport workers.

The Parliament did not accept the exclusion of self-employed workers from the scope of the directive. Given this situation, the Commission announced that it would withdraw its proposal.

Consequently the current directive remains applicable.
