

Common agricultural policy (CAP): direct payments to farmers under support schemes 2014-2020

2011/0280(COD) - 12/10/2011 - Legislative proposal

PURPOSE: to reform the Common Agricultural Policy (CAP) after 2013 (direct payments).

PROPOSED ACT: Regulation of the European Parliament and of the Council.

BACKGROUND: the Commission presents a set of regulations laying down the **legislative framework for the CAP in the period 2014-2020**. The current reform proposals are based on the [Communication on the CAP towards 2020](#) that outlined broad policy options in order to respond to the future challenges for agriculture and rural areas and to meet the objectives set for the CAP, namely (1) **viable food production**; (2) **sustainable management** of natural resources and climate action; and (3) **balanced territorial development**.

A common theme that has emerged throughout this process is the need to promote resource efficiency with a view to smart, sustainable and inclusive growth for EU agriculture and rural areas in line with the Europe 2020 strategy, keeping the structure of the CAP **around two pillars** that use complementary instruments in pursuit of the same objectives.

- **Pillar I** covers direct payments and market measures providing a basic annual income support to EU farmers and support in case of specific market disturbances.
- **Pillar II** covers rural development where Member States draw up and co-finance multiannual programmes under a common framework.

The framework set out in the [Commission proposal for the multiannual financial framework for the years 2014-2020 \(MFF\)](#) proposal foresees that the CAP should maintain its two-pillar structure with the budget for each pillar maintained in nominal terms at its 2013 level and with a clear focus on delivering results on the key EU priorities.

- Direct payments should promote sustainable production by assigning 30% of their budgetary envelope to mandatory measures that are beneficial to climate and the environment.
- Payment levels should progressively converge and payments to large beneficiaries be subject to progressive capping.
- Rural development should be included in a Common Strategic Framework with other EU shared management funds with a reinforced outcome-orientated approach and subject to clearer, improved ex-ante conditionalities.
- Finally, on market measures the financing of the CAP should be reinforced with two instruments outside the MFF: (1) an emergency reserve to react to crisis situations; and (2) the extension of the scope of the European Globalization Adjustment Fund.

On this basis, the main elements of the legislative framework for the CAP during the period 2014-2020 are set out in the following regulations:

- [Proposal for a Regulation](#) of the European Parliament and of the Council establishing rules for direct payments to farmers under support schemes within the framework of the common agricultural policy ('the direct payments regulation');

- [Proposal for a Regulation](#) of the European Parliament and of the Council establishing a common organisation of the markets in agricultural products (Single CMO Regulation) ('the Single CMO regulation');
- [Proposal for a Regulation](#) of the European Parliament and of the Council on support for rural development by the European Agricultural Fund for Rural Development (EAFRD) ('the rural development regulation');
- [Proposal for a Regulation](#) of the European Parliament and of the Council on the financing, management and monitoring of the common agricultural policy ('the horizontal regulation');
- [Proposal for a Council Regulation](#) determining measures on fixing certain aids and refunds related to the common organisation of the markets in agricultural products;
- [Proposal for a Regulation](#) of the European Parliament and of the Council amending Council Regulation (EC) No 73/2009 as regards the application of direct payments to farmers in respect of the year 2013;
- **Proposal for a Regulation of the European Parliament and of the Council amending Council Regulation (EC) No 1234/2007 as regards the regime of the single payment scheme and support to vine-growers.**

The rural development regulation builds on the proposal presented by the [Commission on 6 October 2011](#) that sets out common rules for all funds operating under a Common Strategic Framework. A regulation will follow on the scheme for most deprived persons, for which funding is now placed under a different heading of the MFF.

In addition, new rules on the publication of information on beneficiaries taking account of the objections expressed by the Court of Justice of the European Union are also under preparation with a view to finding the most appropriate way to reconcile beneficiaries' right to protection of personal data with the principle of transparency.

IMPACT ASSESSMENT: the **three scenarios** elaborated in the impact assessment are:

- **an adjustment scenario** that continues with the current policy framework while addressing its most important shortcomings, such as the distribution of direct payments;
- **an integration scenario** that entails major policy changes in the form of enhanced targeting and greening of direct payments and reinforced strategic targeting for rural development policy in better coordination with other EU policies, as well as extending the legal base for a broader scope of producer cooperation; and
- **a refocus scenario** that reorients the policy exclusively towards the environment with a progressive phasing out of direct payments, assuming that productive capacity can be maintained without support and that the socio-economic needs of rural areas can be served by other policies.

The impact assessment concludes that the **integration scenario** is the most balanced in progressively aligning the CAP with the EU's strategic objectives. It will also be essential to develop an evaluation framework to measure the performance of the CAP with a common set of indicators linked to policy objectives.

LEGAL BASIS: Article 43(2) of the Treaty on the Functioning of the European Union (TFEU).

CONTENT: the proposed Regulation lays down common rules for the basic payment scheme and related payments. It seeks to better target support to certain actions, areas or beneficiaries as well as to pave the way for convergence of the level of support within and across Member States. The regulation also includes a section on coupled support.

(1) **A single scheme across the EU, the basic payment scheme**, replaces the Single Payment Scheme and the Single Area Payment Scheme as from 2014. The scheme will operate on the basis of payment entitlements allocated at national or regional level to all farmers according to their eligible hectares in the first year of application.

(2) The definition of **active farmer** further enhances targeting on farmers genuinely engaged in agricultural activities, and thus legitimizes support. In addition, the progressive reduction and capping of support for large beneficiaries is foreseen while taking due account of employment.

(3) The following **payments** are also provided:

- a payment (30% of annual national ceiling) for farmers following **agricultural practices beneficial for the climate and the environment**: crop diversification, maintenance of permanent pastures and ecological focus areas. Organic farming automatically benefits from this payment, while farmers in Natura 2000 areas will have to comply with the relevant requirements to the extent that they are consistent with the Natura 2000 legislation;
- a voluntary payment (up to 5% of annual national ceiling) for **farmers in areas facing specific natural constraints** (areas delimited in the same manner as for rural development purposes); this payment recognizes the need for income support to maintain presence in areas facing specific natural constraints and complements existing support under rural development;
- a payment (up to 2% of annual national ceiling) for **young farmers** in their installation, which may be complemented by setting up aid under rural development.

At the same time, the Regulation:

- lays down a **simplified scheme for small farmers** (up to 10% of annual national ceiling), who may thus receive a lump sum payment replacing all direct payments and producing administrative simplification with an easing of such farmers' obligations related to greening, cross compliance and controls;
- provides a **voluntary coupled support scheme** for specific types of farming or specific agricultural systems which are experiencing certain difficulties and which are particularly important for economic and/or social reasons; support is provided to the extent necessary to maintain current levels of production (up to 5% of annual national ceiling with the possibility to go beyond this in particular cases);
- maintain the possibility for Complementary National Direct Payments for **Bulgaria and Romania** and includes a specific payment for cotton.

In terms of **simplification**, the new direct payments system will be based on a single type of payment entitlements and streamline transfer rules, thereby simplifying its management.

BUDGETARY IMPLICATION: in current prices, it is proposed that the CAP should focus on its core activities with **EUR 317.2 billion allocated to Pillar I and EUR 101.2 billion to Pillar II** over the 2014-2020 period.

The Pillar I and Pillar II funding is complemented by **additional funding of EUR 17.1 billion** consisting of:

- EUR 5.1 billion for research and innovation,
- EUR 2.5 billion for food safety and
- EUR 2.8 billion for food support for the most deprived persons in other headings of the MFF,
- EUR 3.9 billion in a new reserve for crises in the agricultural sector,
- up to EUR 2.8 billion in the European Globalization Adjustment Fund outside the MFF, thus bringing the total budget to EUR 435.6 billion over the 2014-2020 period.

The total budget to **EUR 435.6 billion over the 2014-2020 period.**

Distribution of support among Member States: it is proposed that all Member States with direct payments below 90% of the EU average will see one third of this gap closed. The national ceilings in the direct payments regulation are calculated on this basis.

Rural development aid: this is based on objective criteria linked to the policy objectives taking into account the current distribution. As is the case today, less developed regions should continue to benefit from higher co-financing rates, which will also apply to certain measures such as knowledge transfer, producer groups, cooperation and Leader.

Lastly, some **flexibility** for transfers between pillars is introduced (up to 5% of direct payments): from Pillar I to Pillar II to allow Member States to reinforce their rural development policy, and from Pillar II to Pillar I for those Member States where the level of direct payments remains below 90% of the EU average.

DELEGATED ACTS: the proposal contains provisions empowering the Commission to adopt delegated acts in accordance with Article 290 of the Treaty on the Functioning of the European Union.
