

EC/Serbia Stabilisation and Association Agreement: procedures for applying the Agreement and the Interim Agreement

2011/0465(COD) - 25/10/2012 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted by 514 votes to 14, with 9 abstentions, a legislative resolution on the proposal for a Regulation of the European Parliament and of the Council concerning certain procedures for applying the Stabilisation and Association Agreement between the European Communities and their Member States, of the one part, and the Republic of Serbia, of the other part, and for applying the Interim Agreement between the European Community, of the one part, and the Republic of Serbia, of the other part.

Parliament's position adopted at first reading in accordance with the ordinary legislative procedure, modifies the Commission's proposal as follows:

Implementing acts: Parliament asks that the Commission should be able to adopt as rapidly as possible immediately applicable implementing acts on duly justified imperative grounds of urgency (e.g. in the event of exceptional and critical circumstances) by means of the **advisory procedure** (and not the examination procedure, as provided for in the proposal), given the effects of these measures and their sequential logic in relation to the adoption of definitive measures. Where a delay in the imposition of measures would cause damage which would be difficult to repair it is necessary to allow the Commission to adopt immediately applicable provisional measures.

Written procedure: in accordance with [Regulation \(EU\) No 182/2011](#) laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers, written procedure may be used in certain simple cases. This Regulation lays down that, except if otherwise provided, the written procedure may not be applied if a Member State objects. In line with the Trade Omnibus I and II reports, Parliament proposes that the written procedure is to be terminated without result **only if a qualified majority of Member States calls for this**.

Review: lastly, Parliament calls for provisions to be laid down regulating the management and **review** of these tariff quotas in order to allow for their thorough assessment.
