Measures that the Union may take in relation to the combined effect of anti-dumping or anti-subsidy measures with safeguard measures. Codification

2014/0164(COD) - 11/02/2015 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted by 636 to 51, with 13 abstentions, a legislative resolution on the proposal for a regulation of the European Parliament and of the Council on measures that the Union may take in relation to the combined effect of anti-dumping and anti-subsidy measures with safeguard measures (codified text).

Parliament adopted its position at first reading following the ordinary legislative procedure taking over the Commission proposal as adapted to the recommendations of the Consultative Working Party of the legal services of the European Parliament, the Council and the Commission.

According to the Consultative Working Party, the proposal in question contains a straightforward codification of the existing texts without any change in their substance.

The proposed regulation establishes specific rules to enable the Commission, where it considers it appropriate, to take action with a view to ensuring that a combination of anti-dumping or anti-subsidy measures with safeguard tariff measures on the same product does not place an undesirably onerous burden on certain exporting producers seeking to export to the Union, which may have the effect of denying them access to the Union market.
