

High common level of network and information security across the Union. NIS Directive

2013/0027(COD) - 17/06/2016 - Committee recommendation tabled for plenary, 2nd reading

The Committee on the Internal Market and Consumer Protection adopted the recommendation for a second reading contained in the report by Andreas SCHWAB (EPP, DE) on the Council position at first reading with a view to the adoption of a directive of the European Parliament and of the Council concerning measures for a high common level of security of network and information systems across the Union.

The committee recommended the European Parliament to **adopt the Council position at first reading** without amendment.

To recall, the proposal aims to lay down measures with a view to achieving a high common level of security of networks and information systems within the European Union so as to improve the functioning of the internal market.
