2016 discharge: Clean Sky 2 Joint Undertaking

2017/2182(DEC) - 26/06/2017 - Non-legislative basic document

PURPOSE: presentation by the Commission of the consolidated annual accounts of the European Union for the financial year 2016, as part of the 2016 discharge procedure.

Analysis of the accounts of the **Clean Sky 2 Joint Undertaking**.

CONTENT: the organisational governance of the EU consists of institutions, agencies and other EU bodies whose expenditure is included in the general budget of the Union.

This Commission document concerns the EU's consolidated accounts for the year 2016 and details how spending by the EU institutions and bodies was carried out. The consolidated annual accounts of the EU provide financial information on the activities of the institutions, agencies and other bodies of the EU from an accrual accounting and budgetary perspective.

It is the responsibility of the Commission's Accounting Officer to prepare the EU's consolidated annual accounts and ensure that they present fairly, in all material aspects, the financial position, the result of the operations and the cash flows of the EU institutions and bodies, including the **Clean Sky 2 JU**, with a view to granting discharge.

Discharge procedure: the final step of a budget lifecycle is the discharge of the budget for a given financial year. It represents the political aspect of the external control of budget implementation and is the decision by which the European Parliament, acting on a Council recommendation, "**releases**" the Commission (and other EU bodies) from its responsibility for management of a given budget by marking the end of that budget's existence. The European Parliament is the discharge authority within the EU.

The discharge procedure may produce three outcomes: (i) the granting; (ii) postponement or; (iii) the refusal of the discharge.

The final discharge report including specific recommendations to the Commission for action is adopted in plenary by the European Parliament and are subject to an annual follow up report in which the Commission outlines the concrete actions it has taken to implement the recommendations made.

Each agency is subject to its own discharge procedure, including the **Clean Sky 2 JU**.

Clean Sky 2 JU: the Clean Sky 2 Joint Undertaking, which is located in Brussels (BE), was set up Council Regulation (EU) No 558/2014 for the period up to 31 December 2024. The Clean Sky 2 Joint Undertaking replaced and succeeded the Clean Sky Joint Undertaking and aims to contribute to improving the environmental impact of aeronautical technologies, including those relating to small aviation, as well as to developing a strong and globally competitive aeronautical industry and supply chain in Europe.

The year 2016 was a very important and busy year for the Clean Sky 2 Joint Undertaking and for the whole aeronautics sector. Two programmes – Clean Sky under FP7 and Clean Sky 2 in Horizon 2020 – were fully implemented and managed simultaneously by the Joint Undertaking and the stakeholders. The Clean Sky 2 JU continued in 2016 to engage actively with the European regions to seek and build synergies with their investments through the regional funds, in particular through the European Structural and Investment Funds. W

As regards the JU's accounts, these are presented in detail in the document published by the Joint Undertaking (please refer to the final accounts of the Clean Sky 2 JU).
