Other observations

Parliament also made a series of observations regarding performance, staff policy, internal control and Covid-19.

In particular, it noted that:

- the Centre uses a noteworthy performance measurement system that includes key performance indicators to assess the added value provided by its activities on project, activity and organisational levels and other measures to improve its budget management;
- the Centre accomplished and even exceeded its work plan and the targets and deliverables set therein for 2020 despite the challenges caused by the Covid-19 pandemic;
- the Centre signed a new service-level agreement with the European Union Agency for Cyber Security (ENISA) to share resources, such as confidential counsellors' services between the two agencies;
- recent work has been carried out to analyse the impact of the pandemic and digital transition on adapting business practices to the new realities in the Union labour market through e.g. the Covid-19 European Company Survey in conjunction with Eurofound;
- the good cooperation of the Centre with the European Training Foundation (ETF) and Eurofound;

- on 31 December 2020, the establishment plan was 97 % implemented, with 78 temporary agents appointed out of 81 temporary agents and 10 officials authorised under the Union budget;
- in 2020 the Commission's internal audit service (IAS) conducted remotely a full risk assessment covering the Centre's administrative, financial, operational and IT process and a follow-up auditing conducted by the IAS concluded that the Centre had implemented all the recommendation adequately and effectively;
- the Centre promptly shaped and activated a crisis management plan to deal with the Covid-19 pandemic by taking precautionary measures, such as teleworking and the cancellation of physical events and missions, to ensure business continuity;
- efforts have been made to increase the Centre's cybersecurity and data protection, especially as regards training of and awareness-raising among staff.
