EU/USA Agreement on the promotion, provision and use of Galileo and GPS satellite-based navigation systems and related applications: extension

2022/0005(NLE) - 07/06/2022 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted by 556 votes to 4, with 13 abstentions, a legislative resolution on the draft Council decision on the extension of the Agreement on the promotion, provision and use of Galileo and GPS satellite-based navigation systems and related applications between the European Community and its Member States, of the one part, and the United States of America, of the other part.

Parliament gave its consent to the extension of the agreement.

The Agreement’s objective is to provide a framework for cooperation between the Parties in the promotion, provision and use of civil GPS and Galileo navigation and timing signals and services, value-added services, augmentations, and global navigation and timing goods.

The Parties intend to work together, both bilaterally and in multilateral fora, as provided herein, to promote and facilitate the use of these signals, services, and equipment for peaceful civil, commercial, and scientific uses, consistent with and in furtherance of mutual security interests.
