

Setting out the detailed elements of the scoreboard for the Ukraine Plan

2024/2975(DEA) - 29/11/2024 - Non-legislative basic document

This Commission **delegated regulation** aims to supplement [Regulation \(EU\) 2024/792](#) of the European Parliament and of the Council establishing the Ukraine Facility by setting out the detailed elements of the scoreboard for the Ukraine Plan.

Background

Russia's full-scale invasion of Ukraine led to devastating humanitarian, social and economic consequences.

In accordance with Regulation (EU) 2024/792, the Ukraine Facility has been established as a dedicated instrument with an overall maximum amount of Union support of EUR 50 billion in current prices. The Facility aims to contribute to addressing Ukraine's financing gap and maintaining macro-financial stability until 2027. The objective is to contribute to Ukraine's recovery, reconstruction and modernisation needs while supporting the country's reform efforts on its accession path towards membership of the Union.

The Ukraine Facility Regulation sets out that the progress in the implementation of the Plan will be made available to the public through the establishment of a scoreboard for the Ukraine Plan. The Scoreboard will be available online and will be updated twice a year, after it is made operational as of 1 January 2025.

Regulation (EU) 2024/792 empowers the Commission to establish a scoreboard for Ukraine Plan which will display the progress made in the implementation of the Ukraine Plan and empowers the Commission to define by means of a delegated act the detailed elements of the Scoreboard.
