Convention on controls on persons crossing external frontiers

1993/1243(CNS) - 04/06/1996

The Portuguese Minister had set out the particular problems facing his country when it came to drawing up the convention, these being linked to the East Timor question. After an exchange of views the presidency concluded that a solution had to be found quickly to the two main problems concerning the territorial application of the convention (Article 30 of the draft) and the role of the Court of Justice (Article 29 of the draft).
