

Trans-European transport network: Community guidelines

1994/0098(COD) - 29/01/1996

The Council observed that it could not agree to the amendments made by the European Parliament to its common position of 28 September 1995 on Community guidelines for the development of the trans-European transport network. It therefore decided that the Conciliation Committee should be convened in accordance with Article 189b(3) of the Treaty.
