Convention for the protection of the Communities' financial interests

1994/0911(CNS) - 15/03/1995

During the debate the rapporteur, Mr Bontempi, called for the adoption of a Community directive instead of a convention between the 15 Member States. The Commissioner responsible, Mrs Anita Gradin, stated the Commission agreed with Parliament insofar as the substance was concerned; it could not, however, agree to withdraw its proposal for a convention as that would lead to a deadlock in the Council.
