Milk and milk products: statistical surveys

1995/0234(CNS) - 19/03/1996

In view of developments in the milk sector since 1972, this Directive updates the present system in a consolidated text and provides for a number of adjustments to the existing Directive, relating in particular to weekly surveys (abolished), the breakdown of collections by individual Member State, redefinition of the scope of surveys and the provision by Member States of data concerning the protein content of milk and milk products.
