Wheeled agricultural or forestry tractors: maximum design speed

1996/0129(COD) - 15/07/1997

The rapporteur highlighted the issues of safety and limitation of pollution. As the amendments tabled by Parliament at first reading had been largely integrated in the common position, she recommended that this be adopted. Commissioner Bangemann said only that the Commission would prepare a proposal on the technical questions which applied over 40 km/h.
