Health problems: intra-Community trade of bovine animals and swine (amend. Directive 64 /432/EEC)

1998/0052(COD) - 24/01/2000 - Council position

The Council accepted the Commission's proposal but restricted the delegation of powers to databases for swine. It saw no justification for delegating powers for the databases for bovine animals, which should be in place by 31 December 1999 at the latest. The Council acknowledged the problem involved in setting up databases for swine by the prescribed deadline: the timetable for establishing computerised databases for swine has therefore been spread over three years.
