Fisheries sector: arrangements regarding Community structural assistance (amend Regul. 3699/93/EEC))

1995/0058(CNS) - 31/05/1995 - Economic and Social Committee: opinion, report

According to the ESC, the measures proposed by the Commission were a first step towards establishing a genuine social policy in the fisheries sector affected by significant fleet restructuring. Aid for early retirement went some way to resolving the existing problems although the ESC felt that the scope of this aid was too limited.
