

Foodstuffs intended for particular nutritional uses (amend. Directive 89/398/EEC)

1994/0327(COD) - 05/07/1995 - Economic and Social Committee: opinion, report

The ESC welcomed the Commission proposal and endorsed its objectives of shortening the approval times. However, it called on the Commission to reduce the length of time that could elapse between submission of a request for approval to market an innovative product and the adoption of the opinion of the Scientific Committee for Food.
