School education: European cooperation in quality evaluation. Recommendation

2000/0022(COD) - 04/12/2000

The committee adopted the draft recommendation for second reading (codecision procedure) by Marieke SANDERS-TEN HOLTE (ELDR, NL) approving the Council's common position which had taken up nearly all Parliament's amendments at first reading. The committee welcomed the "fruitful cooperation" which had taken place between Council, Commission and Parliament and felt that the proposal would help boost education standards.
