Stockfarming: prohibition of certain substances with hormonal or thyrostatic action, of beta-agonists

2000/0132(COD) - 06/03/2001 - Modified legislative proposal

The amended proposal includes clarifications proposed by the European Parliament as regards wording in Article 1 (4) and Article 1 (7), in particular to the effect that the Commission will take into account recent scientific data from any source when keeping the measures under review.
