

Burning behaviour of materials used in the interior construction of certain categories of motor vehicle

1992/0417(COD) - 18/04/1995

The committee adopted the report by Mr CASSIDY on the burning behaviour of materials used in the interior construction of certain motor vehicles. The report recommended that the common position be adopted. A recital should simply make mention of the *modus vivendi* involved with regard to comitology.
