Public procurement: services, supply and public work contracts (amend. Directives 92/50/EEC, 93/36/EEC, 93/37/EEC)

1995/0079(COD) - 22/04/1997

The Committee adopted recommendation for second reading by Mr Langen endorsing a Commission proposal to implement the GPA by amending the EU directives concerning the award of public service contracts, public supply contracts and public works contracts respectively. At first reading, the Parliament adopted a large number of amendments to the proposal, which to a great extent were accepted by the Commission and the Council. Therefore, the Committee recommended that parliament adopts the common position with a few minor amendments.
