Motor vehicles, interiors fittings: electrical command of windows...(amend. direct. 74/60 /EEC)

1998/0089(COD) - 25/11/1998

The commission adopted the Commission proposal unamended. Rapporteur Sören WIBE (PES, S) noted that there were a number of minor errors in the original proposal but states that the Commission has given sufficient guarantees that they will be rectified. Thus he only lists them in the "B" part of the report, rather than submitting them as amendments for vote in Plenary.
