Safety and security at work: protection from the risks related to exposure to asbestos (amend. Directive 83/477/EEC)

2001/0165(COD) - 22/01/2003 - Commission opinion on Parliament's position at 2nd reading

The Commission can accept the European Parliament's three amendments in full. The amendments concern: - guidelines on sporadic and low-intensity exposure; - breaks during the use of individual respiratory protective equipment; - sanctions in the event of infringement. The Commission considers that these amendments will extend and improve the text of the common position.
