Safety, hygiene and health at work: 4th Community programme(SAVE) 1996-2000

1995/0155(CNS) - 26/03/1996

Mr Peter SKINNER (UK, PES) saw his report adopted on the proposal for a Council Decision adopting a programme of non-legislative measures to improve health and safety at work. The committee followed entirely the proposals of the rapporteur. Mr SKINNER had tabled amendments on the SAFE programme, on the objectives of the programme, on a higher co-financing rate for SMEs of less than 50 employees, on the role of the social partners, on the role of the Bilbao Agency and, finally, on the criteria by which projects have to be selected.
