Stockfarming: prohibition of certain substances with hormonal or thyrostatic action, of beta-agonists

2000/0132(COD) - 11/08/2003 - Commission opinion on Parliament's position at 2nd reading

The Commission supports the compromise proposal presented at the EP Plenary on 1 July 2003 as it meets the main objectives (to protect consumer health and to reach compliance with the requirements of the World Trade Organisation).
