Research 5th EC framework programme 1998-2002: results dissemination, participation of undertakings, universities

1997/0309(SYN) - 22/09/1998

This report was adopted unanimously in the Committee. Finally, the rapporteur, Mr Marset Campos (GUE /NGL) deplores that Council disagrees with Parliament on the importance of adequate transparency in the fight against fraud and the need to introduce clear rules which would help enterprises participating in projects and Commission and UCLAF auditors to work effectively. Indefinite postponement of this issue is no longer acceptable.
