

Plan protection products: creation of a supplementary protection certificate

1994/0285(COD) - 22/02/1996

The committee adopted the recommendation for second reading concerning the common position on the creation of a supplementary protection certificate for plant protection products. Since the common position incorporated all the amendments tabled by Parliament at first reading, the rapporteur only tabled one amendment which aimed to introduce a new recital to improve legal certainty and transparency.
