# Motor vehicles, interiors fittings: electrical command of windows...(amend. direct. 74/60 /EEC)

1998/0089(COD) - 10/01/2000

The committee adopted the recommendation for second reading (codecision procedure) by Ana PALACIO VALLELERSUNDI (EPP/ED, E) approving the Council's common position. The committee noted that Parliament's observations at first reading concerning certain deficiencies in the drafting of the text had been duly taken into account in the common position and that the latter had made no changes of substance to the original Commission proposal. In view of the laudable aims of the directive and bearing in mind its highly technical nature, the committee endorsed the view taken by Parliament at first reading and recommended that the proposed act be adopted without amendment.
