EC/Ukraine agreement: interim agreement on trade and trade-related matters

1994/0185(CNS) - 29/11/1994

The committee unanimously adopted the two draft reports on the partnership agreement and interim agreement with Ukraine. The rapporteur recommended the EP to approve the conclusion of these two agreements since they were the least the Union could do with regard to economic and commercial cooperation in order to come to the assistance of Ukraine on the difficult path towards economic reconversion. The interim agreement aimed to highlight certain parts of the partnership agreement so that Ukraine could benefit as soon as possible from the facilities envisaged in the areas of trade and economic cooperation.
