EC/Chile agreement: partnership and cooperation agreement

1996/0149(CNS) - 28/01/1997

The objective of the report by Mrs MIRANDA DE LAGE (PSE, ES) on the conclusion of the framework cooperation agreement between the European Union and Chile, adopted unanimously by the committee, was to strengthen links with Chile. The agreement takes the form of a good programme of work leading ultimately to discussions on the establishment of a proper free-trade zone between the European Union and Chile. Given its undisputed political importance, the committee therefore recommended that Parliament approve the agreement.
