Results of the WTO negotiations on financial services and on movement of natural persons

1996/0105(CNS) - 29/05/1996

The committee unanimously adopted the report by Mr KITTELMAN (PPE, D), which tabled two amendments to the proposal for a decision. These amendments stipulated that the legal basis for consulting Parliament should be the second subparagraph of Article 228(3) rather than the first subparagraph as the Commission had proposed. The former made it obligatory to obtain Parliament's assent for the conclusion of international agreements entailing the amendment of an act adopted under the codecision procedure (Article 189b)
