Protection of natural resources: promotion of tropical forests, Community action

1993/0500(SYN) - 10/06/1994 - Modified legislative proposal

The amended proposal takes account of most of the amendments of the European Parliament. These amendments deal mainly with the biodiversity of tropical forests and safeguarding ecosystems and with the need to take better account of local dimensions and the need for the local people to be actively involved. A number of amendments relating to Commission structures and powers were rejected.
