EC/Angola fisheries agreement: protocol for the period from 3 May 1994 to 2 May 1996

1994/0133(CNS) - 02/06/1994 - Legislative proposal

This proposal aimed to conclude the renewal of the fisheries agreement between the Community and Angola for the period from 3 May 1994 to 2 May 1996. This agreement would provide the Community with the following fishing opportunities in Angolan waters: - shrimp vessels: 6 550 GRT per month, as an annual average, with 30% pink shrimps and 70% common shrimps; - demersal trawlers: 1 900 GRT per month, as an annual average; - bottom set longliners and fixed gillnets: 900 GRT per month, as an annual average. Fishing for centrophorus granulosus was forbidden. In return, Angola would receive: - financial compensation of ECU 13 900 000; - financing to the tune of ECU 2 800 000 for scientific and technical programmes relating to fisheries; - training and study grants relating to fisheries disciplines, for Angolan nationals, amounting to ECU 1 800 000.
