EC/Slovenia Agreement: additional Protocol to transport agreement

1996/0261(CNS) - 23/09/1997

The Commission has given the green light to the Additional Protocol between the European Community and the Republic of Slovenia in the field of Transport - rapporteur: Mr Francesco BALDARELLI (PSE, I). In such international agreements the existing procedure does not allow for the tabling of amendments. The Agreement concerns the improvement of infrastructure (railways, motorways and combined transport) half of which will be financed by Slovenia.
