Agricultural prices 1995/1996: aid for fibre flax and hemp

1995/0042(CNS) - 22/02/1995 - Legislative proposal

Flax fibre and hemp: agricultural prices 1995/1996. In view of the current and foreseeable market situation, the Commission proposed maintaining the amounts of aid granted per hectare for 1995/96: - at ECU 935.65 for flax fibre; - at ECU 774.74 for hemp. In addition, the retention of measures promoting the use of flax fibre and the research of new uses should help achieve the objective of preserving market stability, at least in the short term. The Commission therefore proposed that the proportion of aid intended for financing measures of this kind be maintained at ECU 53.64 per hectare. The Regulation would apply from 1.08.1995.
