Agricultural prices 1995/1996: community vineyard register (amend. Regul. 2392/86/EEC)

1995/0808(CNS) - 22/02/1995 - Legislative proposal

Wine (vineyard register): marketing year 1995/1996. As the establishment of the Community vineyard register had fallen behind schedule in several Member States, the Commission proposed, in the context of the reform of the COM, to draw up a simplified vineyard register. It was therefore proposed that the deadline laid down for establishing the Community vineyard register would be extended until 31.12.1996 at the latest, in order to allow a start to be made by way of a simplified system and to make useful progress towards the establishment of the vineyard register in the Member States concerned. The proposal mainly provides for the following measures: - Member States which, on the date of entry into force of the proposed regulation, have not yet produced a vineyard register, or have only drawn up partial registers, should proceed to establish, before 31.12.1995, a graphic reference basis covering the entire area which is under vineyard cultivation; - Member States are to submit to the Commission, within three months following the entry into force of the Regulation, a plan showing the progress they have made in establishing their register; - the Commission will examine this plan and authorize measures which are compatible with the foreseeable needs generated by the development of the COM in this sector.
