

Food additives other than colours and sweeteners

1995/0114(COD) - 16/05/1995 - Legislative proposal

The Commission proposed amending Directive 95/2/EC with a view to including carrageenan refined via an alternative method in the list of food additives authorised within the European Union. Carrageenan (E407) was the official name for a highly refined extract used as a gelling agent in desserts and meat.
