Multi-annual Community action concerning the development of ISDN as a trans-European network

1993/0495(COD) - 14/09/1995 - Commission opinion on Parliament's position at 2nd reading

The Commission accepted the eight amendments adopted by the European Parliament at second reading and incorporated them in its amended proposal. These amendments concerned: - the reference to the universal service and broadband networks; - an explicit reference to public and private sector applications; - the distribution and availability of EURO-ISDN terminals and application software; - cooperation with third countries; - the definition of the list of "non-exhaustive" services; - the addition of a new project of common interest relating to the specific needs of border regions; - a pilot project in the Euro-Infocentres and the training of staff with regard to ISDN terminals
