Animals and products of animal origin: protection against specified zoonoses (amend. Direct. 92/117/EEC)

1995/0255(CNS) - 23/10/1995 - Legislative proposal

OBJECTIVE: to review certain provisions of Directive 92/117/EEC concerning measures for protection against specified zoonoses and specified zoonotic agents in animals and products of animal origin pending the in-depth review of the Directive concerned. SUBSTANCE: It is proposed to extend certain time limits laid down in Directive 92/117/EEC concerning: - the provisions relating to the new rules for the reporting system for zoonoses; - the sampling methods to be developed and the examinations to be carried out; - the implementation and approval of certain national measures together with the presentation and approval of plans submitted by third countries.
