Set-aside requirement for the 1997-1998 marketing year (derog. regul. 1765/92/EEC)

1996/0162(CNS) - 18/06/1996 - Legislative proposal

OBJECTIVE: derogating from the 18% set-aside rate (basic rate proposed as part of the 1996 -1997 price package) for cereals sown for the 1997-1998 marketing year. SUBSTANCE: the proposal for the A Council Regulation is intended to set the set-aside-rate at 5% for cereals sown for the 1997-1998 marketing year. A set-aside rate of 5% makes it necessary to adjust the increase in the set-aside percentage to be applied in the event of a transfer by lowering it to 1 %.
