Rules governing fisheries and aquaculture (amend. regul. 3760/92/EEC)

1996/0183(CNS) - 18/09/1996 - Legislative proposal

OBJECTIVE: to amend Regulation (EEC) No 3760/92 establishing a Community system for fisheries and aquaculture. SUBSTANCE: the aims of the proposal for a Council Regulation are as follows: - to confer powers on the Commission as regards the technical measures on fishing gear and its method of use incorporating, in the Community legal area, binding acts adopted by international fisheries organizations to which the Community is a contracting party; - to confer powers on the Council as regards establishing the fishing opportunities to be allocated to third countries and setting the technical conditions under which catches must be made; - to provide that the temporary technical conservation measures associated with the conditions under which the quotas can be fished may be adopted using the same procedure as that laid down for establishing the total allowable catch.
