Support system for producers of certain arable corps

1996/0212(CNS) - 29/01/1997 - Modified legislative proposal

Without prejudice to the opinion of the European Parliament, the amended proposal acts on the Council's request for a proposal seeking to increase the maximum advance payment for oilseeds to 65% (instead of 50%). The European Parliament supported such a modification of Regulation 1765/92/EEC at its sitting of 3 December 1996.
